

Evidence Checklist - Lab 2

- ☐ Inputs are public, approved or synthetic.
- ☐ Observations and AI inferences are separated.
- ☐ Metrics and claims have a dated source.
- ☐ Human reviewer is named.
- ☐ Accessibility, mobile and links were tested.
- ☐ Acceptance test: The strategy links each initiative to an outcome, source of truth, owner, approval gate, metric and rollback or review trigger.
- ☐ Before snapshot and rollback copy are retained.
