

Evidence Checklist - Lab 10

- ☐ Inputs are public, approved or synthetic.
- ☐ Observations and AI inferences are separated.
- ☐ Metrics and claims have a dated source.
- ☐ Human reviewer is named.
- ☐ Accessibility, mobile and links were tested.
- ☐ Acceptance test: The workflow is evidence-bound, read-only by default, blocks high-risk autonomous actions, records decisions and demonstrates a successful stop/rollback tabletop.
- ☐ Before snapshot and rollback copy are retained.
